GENERAL SUMMARIZING NOTES DESCRIBING THE STRUCTURE

The Albani hotel is situated at a few steps away from the S.M. Novella train station, near the urban and suburban bus stops. It's made of 2 buildings, both situated on a large square inside of a residential road. The first building has two entrances, a principal one with 4 steps, and a secondary entrance reserved to disabled, equipped with service stairway with dais. The first building host the reception, the restaurant/breakfast room, the relax/reading room and the non-accessible bedrooms. The second building is located in front of the first one, accessible by a 10% sloped pathway. On the first floor are seven accessible bedrooms, bathroom ensuite. On the basement floor are 2 meeting rooms, a public bathroom, sauna and fitness room. The lift connects the first floor with the basement. The internal pathways are wide and regular. Emergency exits leads to an open space, with stairs to get away from the building. The hotel has a special agreement with a paying garage that offers a car pick-up/return service.
