GENERAL SUMMARIZING NOTES DESCRIBING THE STRUCTURE

Hotel Centrale is located on the second floor of a historical palace.
The access is influenced by steps on the entrance, and by the opening width of the elevator of 68 cm (27in). The stairway and the elevator are in common with the tenants.
Inside the hotel there are no particular problems for mobility, on the second floor there are the TV hall, the bar and the breakfast room.
The two accessible rooms with bathroom inside are located on the second floor and can be reached from a ramp with slope of about 5%.
The inner pathways are short and regular, the escape way leads to the elevator and to the main stairway outside of the hotel.
The hotel has an agreement with a paying garage parking service that picks-up/return the car on demand
